

TX BUSINESS NETWORK

Thinking about joining the TX Business Network? Here's some information to get started:

What's in it for me?

- **Link Exchange** - Your membership puts your website URL on our link exchange page along with a short description of your product or service. This means increased website traffic, and higher search engine rankings. FREE!!!
- **Event Notifications** - TX Business Network is... a network! We will keep you informed of local events that are geared toward entrepreneurship, marketing ideas, business growth, and of course, business networking. These events could be luncheons, happy hours, seminars, trade shows, conventions and the like.
- **Free Reports** - We all could use a little bit of help and information when it comes to growing our businesses. Often we come across great information and ideas and we want to share them with you! You will receive free reports on marketing, business relationships, business etiquette, budgeting, economic trends, tips on using social networks, software programs and downloads, and just about anything else that will help your business become successful.
- **Special Discounts** - As TX Business Network grows, your opportunities will grow as well. As we expand into new markets, all members will receive a significant discount on advertising in our magazines. We are former retail business owners ourselves, and we know the value of effective and budget-friendly advertising!
- **New Publication Alerts** - When we open in new markets, members will be immediately notified in order to secure the prime advertising spaces in the newest magazine.
